

HOLIDAY CAMP WORKSHOPS

Each and every one of our interactive and creative workshops that take place in the afternoons are designed to develop and inspire your child in more ways than one.

Every Holiday Camp focuses on our "Four Key Areas of Development" that we believe are particularly crucial in igniting your child's curiosity and enthusiasm for learning, for building their capacity to learn and form relationships.

Creativity is a crucial factor in developing your child. This magical workshop will open the door to endless possibilities! Your child will be getting creative using different arts and crafts material to express themselves on a piece of paper. Let's see their innate creativity kick in!

These unmissable workshops will encourage your child to use their imagination and creativity to the max! Exploring a range of topics, your child will be working together with their new friends to compose their own magical pieces based on their own ideas.

Time to get your creative caps on! Combining art and music in a fun-filled and interactive way, children will listen to a range of music from classical to folk to West African blues and be encouraged to create a masterpiece based on what we can hear and feel.

It's time to come together for The Strings Club Orchestra. All Holiday Camp children will join forces as they perform a range of songs in union! This exciting workshop can encourage your child to deepen their musical understanding whilst enhancing communication skills through cooperative learning.

Does your child love to sing? Then look no further! Join us as we sing our hearts out and make beautiful harmonies. A good sing-song can encourage your child to express their emotions and improves their ability to communicate. Get ready to make lots of noise!

Is your child sporty and have lots of energy? Our Sport Beat workshop is packed with high-octane games that will encourage your child to get active whilst taking inspiration from the musical world. They will need all their energy for this highly exciting workshop!

Bringing together the very best in music and drama, your child will get the chance to explore a range of drama techniques and will perform a range of hits from Broadway to the West End! A great workshop to develop your child's confidence and communication skills.

In this imaginative and interactive workshop, your child will be brought back in time to learn all about a famous composer. Did you know that Beethoven often dipped his head in cold water before composing, and that popular theme from Elgar's Cello Concerto was first written on a napkin?

The rhythm is going to get you! Join as we use our bodies to make wonderfully weird sounds, learning all about rhythm by using just our feet, hands, mouths and tummies. We might even try to interact with each other using anything but our voices!

This highly inspiring workshop that focuses on Personal, Social and Health Education aims to support your child on a personal level by giving them the skills to keep them safe and healthy. It not only contributes to the development of their confidence and self-awareness but enables them to recognise their individuality in this world.

Get ready to jam out in our ever-popular Big Jam! Children will use their imagination as we encourage them to improvise and create their own music together. Musical ensembles can also help bring balance and control whilst working towards something that they can accomplish as a group.

Does your child love to dance? Our workshop will get your child moving their bodies, stamping to the funky beat and develop their dance skills. This energetic workshop will promise to be truly action-packed and fun-filled. Make sure you bring your dancing shoes!
